

Brazil

8–18 November 2008

Participants

Brian and Angela Baldock

Ian Dearing

Phil and Sally Ellis

David and Janet Kingman

Martin and Margaret Shepherd

Green-headed Tanager

Leader Peter Forrest

Day 1: Departure from the UK and overnight in Rio.

Day 2: The group were picked up from their hotel in Rio de Janeiro at 10.00 and transferred to Serra dos Tucanos Lodge. Species seen on the transfer included the following; Cocoli Heron, Kelp Gull, Brown Booby and Magnificent Frigatebird. On arrival at the lodge the group quickly settled into birding the gardens and watching many species of tanagers feeding at the bird tables and studying the several species of hummingbirds that regularly come to the sugar feeders on the verandas. After lunch the group took a guided walk along the lodge trails. **Species of note for the day included:** Maroon-bellied Parakeet, Plain Parakeet, Saw-billed Hermit, Frilled Coquette, Sombre Hummingbird, Saw-billed Hermit, Frilled Coquette, Spot-billed Toucanet, Crescent-chested Puffbird, Thrush-like Woodcreeper, Black-cheeked Gnateater, Blue Manakin, Chestnut-bellied Euphonia, Green-headed, Red-necked, Golden-chevroned, Brazilian and Ruby-crowned Tanagers.

Day 3: After an early breakfast we headed off for the 20-minute drive to the start of the Theodora trail. After lunch the group birded along the Cedae trail. **Species of note for the day included:** Scale-throated Hermit, White-throated Hummingbird, Blond-crested Woodpecker, Sharp-tailed Streamcreeper, Spot-breasted Antwren, Star-throated Antwren, Bertoni's Antbird, Streak-capped Antwren, White-browed Warbler, and Brassy-breasted Tanager.

Day 4: After an early breakfast we headed off for the hours drive to the start of the Portao Azul trail. In the afternoon we birded along the road to Macae de Cima. **Species of note for the day included:** Grey-headed Kite, Slaty-breasted Wood-rail, Plovercrest, Saffron Toucanet, Lesser Woodcreeper, Red-eyed Thornbird, White-collared Foliage-gleaner, Ochre-rumped and Dusky-tailed Antbirds, Slaty Bristlefront, Black-and-gold Cotinga, Bare-throated Bellbird, Drab-breasted Bamboo-tyrant, Gilt-edged Tanager, and Half-collared Sparrow.

Day 5: The planned attempt to do the high-altitude trail was thwarted by rain so the National Park was walked instead. **Species of note for the day included:** White-necked Hawk, Brazilian Ruby, Rufous-capped Motmot, Yellow-throated Woodpecker, White-throated Woodcreeper, Pale-browed Treehunter, White-browed Foliage-gleaner, Tawny-throated Leaf-tosser, Giant Antshrike, Mouse-coloured Tapaculo, Hooded Berryeater, Sharpbill Yellow-backed Tanager, Azure-shouldered Tanager and Yellow-green Grosbeak.

Day 6: The morning was spent at the Regua wetland reserve. After lunch the group birded the lodge trails. **Species of note for the day included:** Whistling Heron, Masked Duck, Tropical Screech-owl, White-chinned Sapphire, White-eyed Foliage-gleaner, Sooretama Slaty-antshrike, Chestnut-backed Antshrike, White-flanked Antwren, Lemon-chested Greenlet, and Chestnut-vented Conebill.

Day 7: Without doubt the Three-toed Jacamar is one of the target species of the whole week. We departed early for an hours drive to where days birding began. **Species of note for the day included:** Blackish Rail, Dusky-legged Guan, Blue-winged Macaw, White-eyed Parakeet, Sapphire-spangled Emerald, Three-toed Jacamar, Toco Toucan, Tail-banded Hornero, Scaled Woodcreeper, Hangnest Tody-tyrant, Pallid Spinetail, Rufous-capped Antshrike, Ferruginous Antbird, Streamer-tailed Tyrant, Black-capped Donacobius, and Tawny-headed Swallow

Day 8: Clear skies meant an attempt at higher altitudes was warranted. The first couple of hours were spent on the upper section of the Pico de Caledonia access road. Most of the rest of the day was spent on the lower section. **Species of note for the day included:** Red-legged Seriama, Rufous-capped Spinetail. Large-tailed Antshrike, Rufous-backed Antvireo, Rufous-tailed Antbird, Swallow-tailed Cotinga, Serra Tyrant-manakin, Blue-billed Black-tyrant, Shear-tailed Grey Tyrant, Grey-capped Tyrannulet, Diademed Tanager, Rufous-crowned Greenlet, Bay-chested Warbling-finch and Green-winged Saltator.

Day 9: The day was spent birding the lodge trails and garden. **Species of note for the day included:** Rufous-breasted Hermit, White-shouldered Fire-eye, Grey-hooded Atilla, and Grey-hooded Flycatcher.

Day 10: The group spent the morning around the lodge before departing back to Rio for their flight home at 15.00. **Species of note for the day included:** Channel-billed Toucan, Yellow-eared Woodpecker and Scaled Antbird,

During the groups stay we had a combined total of 266 species seen with a further 14 heard. A total of 76 Atlantic forest endemics were seen.

Pete Forrest
Serra dos Tucanos Lodge

FULL SPECIES LIST

Species marked * are endemic to the Atlantic rain forest.

1. **BROWN TINAMOU** (*Crypturellus obsoletus*) – Heard on several occasions from most forested areas.
2. **LEAST GREBE** (*Tachybaptus dominicus*) – Up to five seen on the Wetland and Portao Azul excursions.
3. **PIED-BILLED GREBE** (*Podilymbus podiceps*) – Two at the wetland reserve on the 13th.
4. **BROWN BOOBY** (*Sula leucogaster*) – Several recorded on the journey up from Rio on the 9th.
5. **NEOTROPIC CORMORANT** (*Phalacrocorax brasilianus*) – Several recorded on the journey up from Rio on the 9th.
6. **MAGNIFICENT FRIGATEBIRD** (*Fregata magnificens*) – Several were recorded from the Rio-Niteroi bridge on the 9th.
7. **COCOI HERON** (*Ardea cocoi*) – One on the journey up from Rio on the 9th.
8. **GREAT EGRET** (*Ardea alba*) – Seen in most wet areas along the roadside when on excursions.
9. **LITTLE BLUE HERON** (*Egretta caerulea*) – One on the journey up from Rio on the 9th.
10. **CATTLE EGRET** (*Bubulcus ibis*) – Seen commonly in any suitable habitat.

11. **STRIATED HERON** (*Butorides striatus*) – Two on the drive up from Rio and two on the Jacamar excursion.
12. **WHISTLING HERON** (*Syrigma sibilatrix*) – One on drive to the wetland reserve and two on the Jacamar excursion.
13. **BLACK-CROWNED NIGHT-HERON** (*Nycticorax nycticorax*) – One at the wetland reserve on the 13th.
14. **WHITE-FACED WHISTLING-DUCK** (*Dendrocygna viduata*) – A flock of 15 birds at the wetland reserve.
15. **BRAZILIAN TEAL** (*Amazonetta braziliensis*) – At least 30 at the wetland reserve on the 13th.
16. **MASKED DUCK** (*Nomonyx dominica*) – A flock of 13 birds at the wetland reserve.
17. **BLACK VULTURE** (*Coragyps atratus*) – Seen daily, common.
18. **TURKEY VULTURE** (*Cathartes aura*) – Seen almost daily, common.
19. **LESSER YELLOW-HEADED VULTURE** (*Cathartes burrovianus*) – One at the wetland reserve on the 13th.
20. **GREY-HEADED KITE** (*Leptodon cayanensis*) – One on the Portao Azul excursion on the 11th.
21. **RUFIOUS-THIGHED KITE** (*Harpagus diodon*) – Up to three birds seen on three dates.
22. **PLUMBEOUS KITE** (*Ictinia plumbea*) – Two on the Portao Azul excursion and three over the lodge on the 17th.
23. **CRANE HAWK** (*Geranospiza caerulescens*) – One on the Portao Azul excursion on the 11th.
24. **BICOLOURED HAWK** (*Accipiter bicolor*) – Singles on the wetland and high altitude excursions.
25. **SAVANNA HAWK** (*Heterospizias meridionalis*) – Recorded in small numbers on most excursions.
26. **ROADSIDE HAWK** (*Buteo magnirostris*) – Recorded almost daily in small numbers.
27. **WHITE-TAILED HAWK** (*Buteo albicaudatus*) – One on the Portao Azul and two on the Jacamar excursions.
28. **SHORT-TAILED HAWK** (*Buteo brachyurus*) – A single at the Portao Azul on the 11th.
29. **WHITE-RUMPED HAWK** (*Buteo leucorrhous*) – A single on the high altitude excursion on the 15th.
30. **WHITE-NECKED HAWK** (*Leucopternis lacernulata*) – A pair at the National Park on the 12th.
31. **BLACK-AND-WHITE HAWK-EAGLE** (*Spizastur melanoleucus*) – The breeding pair was seen on several dates at the lodge.
32. **SOUTHERN CARACARA** (*Caracara plancus*) – Recorded almost daily from suitable habitats.
33. **YELLOW-HEADED CARACARA** (*Milvago chimachima*) – Recorded almost daily from suitable habitats.
34. **BARRED FOREST-FALCON** (*Micrastur ruficollis*) – Heard only, on the Theodora trail on the 10th.
35. **AMERICAN KESTREL** (*Falco sparverius*) – A single on the Jacamar excursion on the 14th.
36. **DUSKY-LEGGED GUAN** (*Penelope obscura*) – Two at the National Park and on the Jacamar excursion.
37. ***SLATY-BREASTED WOOD-RAIL** (*Aramides saracura*) – Up to three birds on three dates.
38. **BLACKISH RAIL** (*Pardirallus nigricans*) – Two were seen on the Jacamar excursion on the 14th.
39. **RED-LEGGED SERIAMA** (*Cariama cristata*) – Three on the Jacamar and two on the high altitude excursions.
40. **PURPLE GALLINULE** (*Porphyrio martinica*) – Several seen at the wetland reserve on the 24th.
41. **COMMON MOORHEN** (*Gallinula chloropus*) – Up to 40 birds at the wetland and a couple of other sightings during the week.
42. **WATTLED JACANA** (*Jacana jacana*) – Small numbers recorded on three dates.
43. **SOUTHERN LAPWING** (*Vanellus chilensis*) – Recorded almost daily in suitable habitats.

44. **KELP GULL** (*Larus dominicanus*) – Small numbers were recorded on the journey from Rio.
45. **SOUTH AMERICAN TERN** (*Sterna hirundinacea*) – Small numbers were recorded on the journey from Rio.
46. **PICAZURO PIGEON** (*Patagionas picazuro*) – Small numbers recorded most days.
47. **PALE-VENTED PIGEON** (*Patagionas cayennensis*) – A single on the Jacamar excursion on the 14th.
48. **PLUMBEOUS PIGEON** (*Patagionas plumbea*) – Two at the Portao Azul and one on the high altitude excursions.
49. **RUDDY GROUND-DOVE** (*Columbina talpacoti*) – Seen in small numbers almost daily.
50. **WHITE-TIPPED DOVE** (*Leptotila verreauxi*) – One at the lodge on the 9th.
51. **BLUE-WINGED MACAW** (*Primolius maracana*) – Three were seen on the Jacamar excursion.
52. **WHITE-EYED PARAKEET** (*Aratinga leucophthalmus*) – Five were seen on the Jacamar excursion.
53. ***MAROON-BELLIED PARAKEET** (*Pyrrhura frontalis*) – Small numbers recorded in the lodge gardens daily. Also seen on several of the excursions.
54. ***PLAIN PARAKEET** (*Brotogeris tirica*) – Small numbers recorded in the lodge gardens daily. Also seen on several of the excursions.
55. **BLUE-WINGED PARROTLET** (*Forpus crassirostris*) – Two on the Jacamar excursion and two at the lodge on the 16th.
56. **SCALY-HEADED PARROT** (*Pionus maximiliani*) – Recorded within the lodge grounds on several occasions, also on several of the excursions.
57. **SQUIRREL CUCKOO** (*Piaya cayana*) – One or two birds were recorded almost daily.
58. **SMOOTH-BILLED ANI** (*Crotophaga ani*) – Seen commonly in any suitable habitat.
59. **GUIRA CUCKOO** (*Guira guira*) – Seen commonly in any suitable habitat.
60. **STRIPED CUCKOO** (*Tapera naevia*) – Heard only, on the Jacamar excursion.
61. **TROPICAL SCREECH-OWL** (*Megascops choliba*) – A pair was seen at a daytime roost at the wetland reserve on the 13th.
62. **BURROWING OWL** (*Athene cunicularia*) – Up to five birds seen on four dates.
63. **WHITE-COLLARED SWIFT** (*Streptoprocne zonaris*) – Groups of up to fifty birds recorded on four dates.
64. **GREY-RUMPED SWIFT** (*Chaetura cinereiventris*) – Birds going to roost were seen on several dates at the lodge.
65. **ASHY-TAILED SWIFT** (*Chaetura andrei*) – A small flock on the drive to the National Park.
66. ***SAW-BILLED HERMIT** (*Ramphodon naevius*) – Recorded almost daily around the lodge.
67. ***SCALE-THROATED HERMIT** (*Phaethornis eurynome*) – Up to three birds seen on four dates.
68. **PLANALTO HERMIT** (*Phaethornis pretrei*) – One on the Jacamar excursion on the 14th.
69. **RUFIOUS-BREASTED HERMIT** (*Glaucis hirsuta*) – One at the lodge on the 16th.
70. ***SOMBRE HUMMINGBIRD** (*Campylopterus curvipennis*) – Recorded almost daily at the lodge.
71. **SWALLOW-TAILED HUMMINGBIRD** (*Eupetomena macroura*) – Seen almost daily in a variety of habitats.
72. ***BLACK JACOBIN** (*Melanotrochilus fuscus*) – Seen almost daily around the lodge and on several of the excursions.
73. ***PLOVERCREST** (*Stephanoxis lalandi*) – Only recorded on the Macae de Cima road when one male was seen.
74. ***FRILLED COQUETTE** (*Lophornis magnificus*) – A pair at the lodge feeders on several dates.
75. **GLITTERING-BELLIED EMERALD** (*Chlorostilbon aureoventris*) – One on the Jacamar and three on the high altitude excursions.

76. ***VIOLET-CAPPED WOODNYMPH** (*Thalurania glaucopis*) – Recorded almost daily.
77. **WHITE-CHINNED SAPPHIRE** (*Hylocharis cyanus*) – Two at the wetland reserve on the 13th.
78. ***WHITE-THROATED HUMMINGBIRD** (*Leucochloris albicollis*) – Four on the Theodora trail.
79. **VERSICOLOURED EMERALD** (*Agyrtria versicolor*) – One at the lodge feeders on several dates.
80. **SAPPHIRE-SPANGLED EMERALD** (*Amazila lactea*) – One on the Jacamar excursion.
81. ***BRAZILIAN RUBY** (*Clytolaema rubricauda*) – Two at the National park on the 12th.
82. **AMETHYST WOODSTAR** (*Calliphlox amethystine*) – A single on the Theodora trail on the 10th.
83. **SURUCUA TROGON** (*Trogon surrucura*) – Seen most days at the lodge and on several of the excursions.
84. **BLACK-THROATED TROGON** (*Trogon rufus*) – One on the Theodora trail on the 10th.
85. **RINGED KINGFISHER** (*Ceryle torquata*) – Three were seen during the week.
86. **GREEN KINGFISHER** (*Chloroceryle americana*) – One at the wetland reserve on the 13th.
87. **AMAZON KINGFISHER** (*Chloroceryle amazona*) – Three were seen during the week.
88. ***RUFIOUS-CAPPED MOTMOT** (*Baryphthengus ruficapillus*) – One at the National Park on the 12th.
89. ***THREE-TOED JACAMAR** (*Jacamaralcyon tridactyla*) – As usual this bird performed very well with one being seen on the 14th.
90. **WHITE-EARED PUFFBIRD** (*Hystalus chacuru*) – One was seen on the Jacamar excursion on the 14th.
91. ***CRESCENT CHESTED PUFFBIRD** (*Malacoptila striata*) – The resident pair was seen on a couple of dates at the lodge.
92. ***SAFFRON TOUCANET** (*Bailloniuss bailloni*) – Up to four birds were seen on several dates at the lodge feeders.
93. **SPOT-BILLED TOUCANET** (*Selenidera maculirostris*) – Seen most days at the lodge and on several of the excursions.
94. **CHANNEL-BILLED TOUCAN** (*Rhamphastos vitellinus*) – Ones or twos seen on three dates at the lodge.
95. **TOCO TOUCAN** (*Rhamphastos toco*) – A single was seen on the Jacamar excursion.
96. **WHITE-BARRED PICULET** (*Picumnus cirratus*) – Up to four on four dates.
97. **WHITE WOODPECKER** (*Melanerpes candidus*) – Four on the journey up from Rio and another four on the Jacamar excursion.
98. ***YELLOW-EARED WOODPECKER** (*Veniliornis maculifrons*) – One at the lodge on the 17th.
99. ***YELLOW-BROWED WOODPECKER** (*Piculus aurulentus*) – A single on the high altitude excursion on the 15th.
100. **YELLOW-THROATED WOODPECKER** (*Piculus flavigula*) – Two at the National Park on the 12th.
101. **CAMPO FLICKER** (*Colaptes campestris*) – Groups of up to five birds were seen on two dates.
102. **BLOND-CRESTED WOODPECKER** (*Celeus flavescens*) – Recorded on several dates at the lodge.
103. ***TAIL-BANDED HORNERO** (*Furnarius figulus*) – Five on the Jacamar excursion on the 14th.
104. **RUFIOUS HORNERO** (*Furnarius rufus*) – Seen commonly in any suitable habitat.
105. ***RUFIOUS-CAPPED SPINETAIL** (*Synallaxis ruficapilla*) – One on the high altitude excursion.
106. ***GREY-BELLIED SPINETAIL** (*Synallaxis cinerascens*) – A single on the Portao Azul excursion on the 11th.
107. **SPIX'S SPINTAIL** (*Synallaxis spixi*) – Two on the Theodora and high altitude excursions.
108. ***PALLID SPINETAIL** (*Cranioleuca pallida*) – Singles on the Jacamar and high altitude excursions.

109. **YELLOW-CHINNED SPINETAIL** (*Certhiaxis cinnamomea*) – Small numbers at the wetland reserve and on the Jacamar excursion.
110. **COMMON THORNBIRD** (*Phacellodomus rufifrons*) – Three on the Jacamar excursion on the 14th.
111. ***RED-EYED THORNBIRD** (*Phacellodomus erythrophthalmus*) – One at the Portao Azul on the 11th.
112. **STREAKED XENOPS** (*Xenops rutilans*) – Singles on three dates.
113. ***PALE-BROWED TREEHUNTER** (*Cichlocolaptes leucophrus*) – One at the National Park on the 12th.
114. **BUFF-FRONTED FOLIAGE-GLEANER** (*Philydor rufus*) – Up to four on three dates.
115. ***WHITE-COLLARED FOLIAGE-GLEANER** (*Anabazenops leucophthalmus*) – Singles on the Portao Azul, National Park and Jacamar excursions.
116. ***WHITE-BROWED FOLIAGE-GLEANER** (*Anabacerthia amaurotis*) – Three were seen at the National Park on the 12th.
117. ***WHITE-EYED FOLIAGE-GLEANER** (*Automolus leucophthalmus*) – Singles at the lodge on the 13th and 17th.
118. **TAWNY-THROATED LEAFTOSSER** (*Sclerurus mexicanus*) – Four at the National park on the 12th.
119. **SHARP-TAILED STREAMCREEPER** (*Lochnias nematura*) – The breeding pair was regularly seen at the lodge.
120. ***THRUSH-LIKE WOODCREEPER** (*Dendrocincla turdina*) – Singles at the lodge on the 9th and 10th.
121. **OLIVACEOUS WOODCREEPER** (*Sittasomus griseicapillus*) – Recorded almost daily in suitable habitat.
122. ***WHITE-THROATED WOODCREEPER** (*Xiphocolaptes albicollis*) – Ones or twos on four dates.
123. ***LESSER WOODCREEPER** (*Lepidocolaptes fuscus*) – Singles on three dates.
124. ***SCALED WOODCREEPER** (*Lepidocolaptes squamatus*) – A pair on the Jacamar excursion on the 14th.
125. **GIANT ANTSHRIKE** (*Batara cinerea*) – One at the National Park on the 12th.
126. ***LARGE-TAILED ANTSHRIKE** (*Mackenziaene leachii*) – One on the high altitude excursion on the 15th.
127. ***TUFTED ANTSHRIKE** (*Mackenziaene severa*) – Heard only, at the wetland reserve on the 13th.
128. ***SPOT-BACKED ANTSHRIKE** (*Hypoedaleus guttatus*) – Heard only, at the lodge on the 16th.
129. **RUFOUS-CAPPED ANTSHRIKE** (*Thamnophilus ruficapillus*) – A single on the Jacamar excursion on the 14th.
130. **CHESTNUT-BACKED ANTSHRIKE** (*Thamnophilus palliatus*) – Three at the wetland reserve on the 13th.
131. ***SOORETAMA SLATY-ANTSHRIKE** (*Thamnophilus ambiguus*) – One at the wetland reserve on the 13th.
132. **VARIABLE ANTSHRIKE** (*Thamnophilus caerulescens*) – Ones or twos on three dates.
133. ***SPOT-BREASTED ANTVIREO** (*Dysithamnus stictothorax*) – Two at the lodge on the 10th.
134. **PLAIN ANTVIREO** (*Dysithamnus mentalis*) – Singles at the lodge on the 10th and 16th.
135. ***RUFOUS-BACKED ANTVIREO** (*Dysithamnus xanthopterus*) – A single on the high altitude excursion.
136. ***STAR-THROATED ANTWREN** (*Myrmotherula gularis*) – Heard or seen on most days in forested habitat.
137. **WHITE-FLANKED ANTWREN** (*Myrmotherula axillaries*) – Two were seen at the wetland reserve on the 13th.
138. ***FERRUGINOUS ANTBIRD** (*Drymophila ferruginea*) – A single on the Jacamar excursion on the 14th.
139. ***BERTONIS ANTBIRD** (*Drymophila rubricollis*) – A pair on the Theodora trail.
140. ***RUFOUS-TAILED ANTBIRD** (*Drymophila genei*) – Two on the high altitude trail.

141. ***OCHRE-RUMPED ANTBIRD** (*Drymophila ochropyga*) – A single on the Portao Azul excursion was the only record
142. ***DUSKY-TAILED ANTBIRD** (*Drymophila malura*) – A single on the Portao Azul excursion.
143. ***SCALED ANTBIRD** (*Drymophila squamata*) – Heard at the lodge on the 16th and one seen on the 17th.
144. ***STREAK-CAPPED ANTWREN** (*Terenura maculata*) – Seen almost daily around the lodge and on several of the excursions.
145. ***WHITE-SHOULDERED FIRE-EYE** (*Pyriglena leucoptera*) – One at the lodge on the 17th.
146. ***BRAZILIAN ANTTHRUSH** (*Chamaeza ruficauda*) – Heard only, on the high altitude and Theodora excursions.
147. **VARIEGATED ANTPITTA** (*Grallaria varia*) – Heard only, on the Theodora trail.
148. ***BLACK-CHEEKED GNATEATER** (*Conopophaga melanops*) – Two at the lodge on the 9th.
149. ***SLATY BRISTLEFRONT** (*Merulaxis ater*) – One on the Portao Azul excursion on the 11th.
150. ***SERRA DO MAR TAPACULO** (*Scytalopus notorius*) – One at the National Park on the 12th.
151. **SWALLOW-TAILED COTINGA** (*Phibalura flavirostris*) – At least eight were seen on the high altitude excursion on the 15th.
152. ***BLACK-AND-GOLD COTINGA** (*Tijuca atra*) – Heard on several dates and one seen on the Macae de Cima trail on the 11th.
153. ***CINNAMON-VENTED PIHA** (*Liphaugus lanioides*) – Heard only, at the Portao Azul on the 11th.
154. ***HOODED BERRYEATER** (*Carpornis cucullatus*) – Two at the National park on the 12th.
155. ***BARE-THROATED BELLBIRD** (*Procnias nudicollis*) – Heard on several dates and one seen on the Macae de Cima trail on the 11th.
156. **WHITE-BEARDED MANAKIN** (*Manacus manacus*) – Five at the wetland reserve.
157. ***BLUE MANAKIN** (*Chiroxiphia caudata*) – Recorded on all trips into the forest, giving very pleasing views on several occasions.
158. ***PIN-TAILED MANAKIN** (*Ilicura militaris*) – One at the lodge on the 9th.
159. ***SERRA TYRANT-MANAKIN** (*Neopelma chrysolophum*) – One at the Portao Azul and two on the high altitude excursion.
160. **YELLOW TYRANNULET** (*Capsiempis flaveola*) – One at the Portao Azul on the 11th was the only record
161. **OLIVACEOUS ELAENIA** (*Elaenia obscura*) – At least six on the high altitude excursion.
162. **YELLOW-BELLIED ELAENIA** (*Elaenia flavogaster*) – Ones or twos on three dates.
163. ***GREY-HOODED FLYCATCHER** (*Mionectes rufiventris*) – Seen at the lodge on the 16th and 17th.
164. **OCHRE-BELLIED FLYCATCHER** (*Mionectes oleaginous*) – Seen at the lodge on the 16th and 17th.
165. **SEPIA-CAPPED FLYCATCHER** (*Leptopogon amaurocephalus*) – One at the National Park on the 12th.
166. **MOTTLE-CHEEKED TYRANNULET** (*Phylloscartes ventralis*) – Up to three birds seen on three dates.
167. **PLANALTO TYRANNULET** (*Phyllomyias fasciatus*) – Two at the Portao Azul on the 11th.
168. ***GREY-CAPPED TYRANNULET** (*Phyllomyias griseocapilla*) – A single on the Theodora trail on the 10th.
169. **EARED PYGMY-TYRANT** (*Myiornis auricularis*) – Two on the Theodora and one on the Cedae trails.
170. ***DRAB-BREASTED BAMBOO-TYRANT** (*Hemitriccus diops*) – One on the Portao Azul excursion on the 25th
171. ***EYE-RINGED TODY-TYRANT** (*Hemitriccus orbitatus*) – One at the wetland reserve on the 13th.
172. ***HANGNEST TODY-TYRANT** (*Hemitriccus nidipendulus*) – A single on the Jacamar excursion on the 14th.

173. **OCHRE-FACED TODY-FLYCATCHER** (*Todirostrum plumbeiceps*) – Singles on the Theodora and high altitude trails.
174. ***YELLOW-LORED TODY-FLYCATCHER** (*Todirostrum poliocephalum*) – Singles on three dates.
175. **YELLOW-OLIVE FLYCATCHER** (*Tolmomyias sulphurescens*) – One of the commonest flycatchers being seen or heard almost daily.
176. **WHITE-THROATED SPADEBILL** (*Platyrinchus mystaceus*) – Seen on several dates around the lodge trails.
177. **BRAN-COLORED FLYCATCHER** (*Myiophobus fasciatus*) – Up to four birds on three dates.
178. **CLIFF FLYCATCHER** (*Hirundinea ferruginea*) – Two roadside near the lodge on the 15th.
179. **EULER'S FLYCATCHER** (*Lathrotriccus euleri*) – One at the Portao Azul on the 11th.
180. **WHITE-RUMPED MONJITA** (*Xolmis velata*) – Three birds were seen on the Jacamar excursion on the 13th.
181. **BLUE-BILLED BLACK-TYRANT** (*Knipolegus cyanirostris*) – Two on the high altitude excursion on the 15th.
182. **CRESTED BLACK-TYRANT** (*Knipolegus lophotes*) – Singles on the Jacamar and Portao Azul excursions.
183. **MASKED WATER-TYRANT** (*Fluvicola nengeta*) – Recorded daily at the lodge and on several of the excursions.
184. **WHITE-HEADED MARSH-TYRANT** (*Arundicola leucocephala*) – Four at the wetland reserve and two on the Jacamar excursion.
185. **STREAMER-TAILED TYRANT** (*Gubernetes yetapa*) – Four were seen on the Jacamar excursion on the 13th.
186. **LONG-TAILED TYRANT** (*Colonia colonus*) – One at the Portao Azul on the 11th.
187. **YELLOW-BROWED TYRANT** (*Satrapa icterophrys*) – One at the wetland reserve and two on the Jacamar excursions.
188. **CATTLE TYRANT** (*Machetornis rixosus*) – Four on the Jacamar excursion.
189. ***SHEAR-TAILED GREY TYRANT** (*Muscipipra vetula*) – Four on the high altitude excursion on the 15th.
190. ***GREY-HOODED ATTLA** (*Attila rufus*) – Seen or heard on several dates around the lodge.
191. **GREAT KISKADEE** (*Pitangus sulphuratus*) – Recorded daily from any suitable habitat.
192. **BOAT-BILLED FLYCATCHER** (*Megarhyncus pitangua*) – One on the high altitude excursion and one at Macae de Cima.
193. **SOCIAL FLYCATCHER** (*Myiozetetes similis*) – Recorded almost daily from any suitable habitat.
194. **STREAKED FLYCATCHER** (*Myiodynastes maculates*) – Recorded almost daily at the lodge and on several of the excursions.
195. **VARIEGATED FLYCATCHER** (*Empidonomus varius*) – One on the Portao Azul excursion on the 11th.
196. **SHORT-CRESTED FLYCATCHER** (*Myiarchus ferox*) – One on the Jacamar excursion.
197. **SWAINSON'S FLYCATCHER** (*Myiarchus swainsoni*) – Two on the high altitude excursion.
198. **PIRATIC FLYCATCHER** (*Legatus leucophaeus*) – One at the wetland reserve.
199. **TROPICAL KINGBIRD** (*Tyrannus melancholicus*) – Recorded almost daily from any suitable habitat.
200. **FORK-TAILED FLYCATCHER** (*Tyrannus savanna*) – Recorded almost daily from any suitable habitat.
201. ***GREENISH SCHIFFORNIS** (*Schiffornis virescens*) – Heard only, on the Theodora and Portao Azul trails.
202. **GREEN-BACKED BECARD** (*Pachyramphus viridis*) – Two at the Portao Azul on the 11th.
203. **CHESTNUT-CROWNED BECARD** (*Pachyramphus castaneus*) – One or two birds seen most days.

204. **WHITE-WINGED BECARD** (*Pachyramphus polychopterus*) – One or two birds seen most days.
205. **CRESTED BECARD** (*Pachyramphus validus*) – A pair on several dates at the lodge.
206. **SHARPBILL** (*Oxyruncus cristatus*) – Two at the national park on the 12th.
207. **BROWN-CHESTED MARTIN** (*Progne tapera*) – At least three seen on the Jacamar excursion on the 14th.
208. **GREY-BREASTED MARTIN** (*Progne chalybea*) – At least five seen whilst driving through the local town on the 13th.
209. **WHITE-RUMPED SWALLOW** (*Tachycineta leucorrhoa*) – Small numbers on both the Jacamar excursion and at the wetland reserve.
210. **BLUE-AND-WHITE SWALLOW** (*Pygochelidon cyanoleuca*) – Recorded daily from suitable habitats.
211. **TAWNY-HEADED SWALLOW** (*Stelgidopteryx fucata*) – Two on the Jacamar excursion on the 14th.
212. **SOUTHERN ROUGH-WINGED SWALLOW** (*Stelgidopteryx ruficollis*) – Recorded almost daily from suitable habitats.
213. **BLACK-CAPPED DONACOBIOUS** (*Donacobius atricapillus*) – Two on the Jacamar excursion.
214. ***LONG-BILLED WREN** (*Thryothorus longirostris*) – One at the wetland reserve on the 13th.
215. **MOUSTACHED WREN** (*Thryothorus genibarbis*) – One at the wetland reserve on the 13th.
216. **HOUSE WREN** (*Troglodytes aedon*) – Recorded daily from any suitable habitat.
217. **CHALK-BROWED MOCKINGBIRD** (*Mimus saturninus*) – Common in any open scrubland habitat.
218. **YELLOW-LEGGED THRUSH** (*Platycichla flavipes*) – Three on the high altitude excursion on the 15th.
219. **RUFOUS-BELLIED THRUSH** (*Turdus rufiventris*) – Recorded daily from any suitable habitat.
220. **PALE-BREASTED THRUSH** (*Turdus leucomelas*) – Recorded most days at the lodge and on several of the excursions.
221. **CREAMY-BELLIED THRUSH** (*Turdus amaurochalinus*) – Ones or twos on five dates.
222. **RED-EYED VIREO** (*Vireo olivaceus*) – Frequently heard and two seen at the National Park.
223. **RUFOUS-CROWNED GREENLET** (*Hylophilus poecilotis*) – Three on the high altitude excursion and two on the Theodora trail.
224. **LEMON-CHESTED GREENLET** (*Hylophilus thoracicus*) – Two at the wetland reserve on the 13th.
225. **RUFOUS-BROWED PEPPERSHRIKE** (*Cyclarhis gujanensis*) – Recorded almost daily from suitable forest habitat.
226. **MASKED YELLOWTHROAT** (*Geothlypis aequinoctialis*) – One on the Jacamar excursion on the 14th.
227. **GOLDEN-CROWNED WARBLER** (*Basileuterus culicivorus*) – Recorded almost daily from any suitable forested habit
228. ***WHITE-RIMMED WARBLER** (*Basileuterus leucoblepharus*) – Two on the Theodora trail and four at the National Park.
229. **BANANAQUIT** (*Coereba flaveola*) – Recorded daily from many locations.
230. **CHESTNUT-VENTED CONEBILL** (*Conirostrum speciosum*) – One at the National Park and six at the wetland reserve.
231. **MAGPIE TANAGER** (*Cissopis leveriana*) – Two on the Portao Azul excursion on the 11th.
232. **CINNAMON TANAGER** (*Schistochlamys ruficapillus*) – One on the Jacamar and three on the high altitude excursions.
233. **YELLOW-BACKED TANAGER** (*Hemithraupis flavicollis*) – Two at the national park on the 22nd.
234. **FLAME-CRESTED TANAGER** (*Tachyphonus cristatus*) – Two at the lodge on the 9th and one at the National Park.

235. ***RUBY-CROWNED TANAGER** (*Tachyphonus coronatus*) – Recorded almost daily in the lodge grounds and other locations.
236. **BLACK-GOGGLED TANAGER** (*Trichothraupis melanops*) – Recorded almost daily in small numbers in suitable forest habitat.
237. **RED-CROWNED ANT-TANAGER** (*Habia rubica*) – Singles on three dates.
238. ***BRAZILIAN TANAGER** (*Ramphocelus bresilius*) – Recorded almost daily within the grounds of the lodge.
239. **SAYACA TANAGER** (*Thraupis sayaca*) – Recorded almost daily in the grounds of the lodge and various other locations.
240. ***AZURE-SHOULDERED TANAGER** (*Thraupis cyanoptera*) – Two on the Theodora trail and eight at the National Park.
241. ***GOLDEN-CHEVRONED TANAGER** (*Thraupis ornata*) – Recorded daily from any forested habitat and at the lodge garden.
242. **PALM TANAGER** (*Thraupis palmarum*) – Recorded daily within the grounds of the lodge.
243. **DIADEMED TANAGER** (*Stephanophorus diadematus*) – At least six were seen on the high altitude excursion on the 15th.
244. **VIOLACEOUS EUPHONIA** (*Euphonia violacea*) – Commonly recorded from the feeders at the lodge.
245. **ORANGE-BELLIED EUPHONIA** (*Euphonia xanthogaster*) – Commonly recorded on the feeders at the lodge.
246. ***CHESTNUT-BELLIED EUPHONIA** (*Euphonia pectoralis*) – Commonly recorded from the feeders at the lodge.
247. **BLUE-NAPED CHLOROPHONIA** (*Chlorophonia cyanea*) – Recorded on two dates at the lodge feeders.
248. ***GREEN-HEADED TANAGER** (*Tangara seledon*) – Recorded almost every day from the feeders by the lodge and in suitable lowland forest habitats.
249. ***RED-NECKED TANAGER** (*Tangara cyanocephala*) – Recorded regularly within the grounds of the lodge and in suitable lowland forest habitats.
250. ***BRASSY-BREASTED TANAGER** (*Tangara desmaresti*) – Flocks of up to ten birds recorded on three dates.
251. ***GILT-EDGED TANAGER** (*Tangara cyanoventris*) – Flocks of up to six birds seen on the Jacamar and Portao Azul excursions.
252. **BURNISHED-BUFF TANAGER** (*Tangara cayana*) – Recorded almost daily on the feeders by the lodge and from suitable forested habitat.
253. **BLUE DACNIS** (*Dacnis cayana*) – Recorded almost daily in small numbers
254. ***BAY-CHESTED WARBLING FINCH** (*Poospiza thoracica*) – At least six seen on the high altitude excursion on the 15th
255. **RED-COWLED CARDINAL** (*Paroaria dominicana*) – One near the hotel in Rio on the 9th.
256. **BLUE-BLACK GRASSQUIT** (*Volatinia jacarina*) – Recorded in small numbers from suitable farmland habitats.
257. **SOOTY GRASSQUIT** (*Tiaris fuliginosus*) – One at the Portao Azul on the 11th.
258. ***TEMMINCK'S SEEDEATER** (*Sporophila falcirostris*) – Heard only, on the Theodora trail on the 10th.
259. ***BUFFY-FRONTED SEEDEATER** (*Sporophila frontalis*) – Heard only, on the Theodora trail on the 10th.
260. **DOUBLE-COLLARED SEEDEATER** (*Sporophila caerulescens*) – Recorded in small numbers from suitable farmland habitats.
261. **WHITE-BELLIED SEEDEATER** (*Sporophila leucoptera*) – One at the wetland reserve on the 13th.
262. ***UNIFORM FINCH** (*Haplospiza unicolor*) – Seen on the Theodora trail and at the National Park.

263. **SAFFRON FINCH** (*Sicalis flaveola*) – Recorded on several occasions from any suitable habitat.
264. ***HALF-COLLARED SPARROW** (*Arremon semitorquatus*) – One on the Portao Azul excursion on the 11th.
265. **RUFIOUS-COLLARED SPARROW** (*Zonotrichia capensis*) – Small numbers were recorded on several dates.
266. **BUFF-THROATED SALTATOR** (*Saltator maximus*) – One at the wetland reserve on the 13th.
267. **GREEN-WINGED SALTATOR** (*Saltator similis*) – One on the high altitude excursion on the 15th.
268. ***BLACK-THROATED GROSBEAK** (*Pitylus fuliginosus*) – Three at the lodge on the 9th and one there on the 16th.
269. **YELLOW-GREEN GROSBEAK** (*Caryothraustes canadensis*) – Two at the National Park on the 12th.
270. **WHITE-BROWED BLACKBIRD** (*Sturnella superciliaris*) – One on the Jacamar excursion on the 14th.
271. **CHESTNUT-CAPPED BLACKBIRD** (*Agelaius ruficapillus*) – Small numbers at the wetland reserve and on the Jacamar excursion.
272. **SHINY COWBIRD** (*Molothrus bonariensis*) – Small numbers were recorded on several dates from a variety of habitats.
273. **CHOPI BLACKBIRD** (*Gnorimopsar chopi*) – Two on the Jacamar excursion on the 14th.
274. **RED-RUMPED CACIQUE** (*Cacicus haemorrhous*) – At least ten at the wetland reserve on the 13th.
275. **CRESTED OROPENDOLA** (*Psarocolius decumanus*) – Small numbers seen on three dates.
276. **HOODED SISKIN** (*Carduelis magellanica*) – Three on the high altitude excursion on the 15th.
277. **HOUSE SPARROW** (*Passer domesticus*) – Some were seen.
