Peter Rathbone

Roy Swallow

Leader Andy Foster

Cliff Flycatcher

Day 1: Departure from the UK.

Day 2: The group were picked up from Rio de Janeiro at 08.00 and transferred to Serra dos Tucanos Lodge. Species seen on the transfer included Neotropic Cormorant, White-faced Whistling-duck, Kelp Gull and Magnificent Frigatebird. Upon arrival at the lodge, we went straight out onto the veranda and patio area and begun to watch the many species of tanagers and hummingbirds that come to the feeders. The rest of the day was spent around the lodge gardens. **Species of note for the day included:** Black-and-white Hawk-eagle, Maroon-bellied Parakeet, Plain Parakeet, Rufous-breasted and Saw-billed Hermits, Black Jacobin, Versicolored Emerald, Violet-capped Woodnymph, Sombre Hummingbird, Crescent-chested Puffbird, Blond-crested Woodpecker, Grey-hooded Atilla, Grey-capped Tyrannulet, Long-billed Wren, Green Honeycreeper, Green-headed, Red-necked, Golden-chevroned, Brazilian and Ruby-crowned Tanagers.

Day 3: After an hours drive from the lodge, we arrived at our first destination for the day, Portao Azul. After lunch we headed off for the afternoon to Macae de Cima. **Species of note for the day included:** Slaty-breasted Wood-rail, Scale-throated Hermit, Glittering-bellied Emerald, White-throated Hummingbird, Saffron Toucanet, Yellow-eared Woodpecker, Rufous-capped Spinetail, Pallid Spinetail, Red-eyed Thornbird, White-collared Foliage-gleaner, Tufted Antshrike, Dusky-tailed and Ferruginous Antbirds, Bare-throated Bellbird, Pin-tailed Manakin, Ochre-faced Tody-flycatcher, Hangnest Tody-tyrant, Drab-breasted Bamboo-trant, Gilt-edged Tanager and Half-collared Sparrow.

Day 4: The morning was spent around the trails at the lodge, the afternoon was free for photography, birding or relaxation! **Species of note for the day included:** Rufous-capped Motmot, Thrush-like Woodcreeper, Lesser and Narrow-billed Woodcreepers, White-eyed Foliage-gleaner, Spot-breasted Antvireo, Scaled Antbird, Black-cheeked Gnateater, Shrike-like Cotinga and Pin-tailed Manakin.

Day 5: Today we spent a full day on our high altitude excursion to Pico de Caladonia. **Species of note for the day included:** White-tailed Hawk, Red-legged Seriema, Plovercrest, Amethyst Woodstar, White-eared Puffbird, Yellow-browed Woodpecker, Green-barred Woodpecker, Buff-browed Foliage-gleaner, Large-tailed Antshrike, Rufous-tailed Antbird, Rufous Gnateater, Serra do Mar Tapaculo, Swallow-tailed Cotinga, Black-and-gold and Grey-winged Cotingas, Serra do Mar Tyrant-manakin, Blue-billed Black-tyrant, Shear-tailed Grey-tyrant, Mottle-cheeked Tyrannulet, Grey-hooded Flycatcher, Yellow-legged Thrush, Diademed Tanager and Bay-chested Warbling-finch.

Day 6: A full day to Serra dos Orgaos National Park in Teresopolis. The first half of the morning was spent in the lower park and the remainder of the day in the upper park. **Species of note for the day included:** Reddish Hermit, Yellow-throated Woodpecker, Black-billed Scythebill, Black-capped Foliage-gleaner, Pale-browed Treehunter, Giant Antshrike, Ochre-rumped Antbird, White-bibbed Antbird, Hooded Berryeater, Chestnut-vented Conebill and Yellow-backed Tanager.

Day 7: The morning was spent on the Theodoro Trail, the afternoon was free around the lodge grounds and trails. **Species of note for the day included:** Mantled Hawk, Brazilian Ruby, White-browed Foliage-gleaner, Tawny-throated Leaf-tosser, Bertonis Antbird, Brazilian Antthrush, Slaty Bristlefront, Ochre-faced Tody-flycatcher and Azure-shouldered Tanager.

Day 8: The morning was spent around the Regua Wetlands. We returned to the comfort of the lodge for lunch and shortly afterwards drove the short distance to the Cedae Trail where we spent the rest of the afternoon. **Species of note for the day included:** Masked Duck, Lesser Yellow-headed Vulture, Rufous-breasted Hermit, Crescent-chested Puffbird, Saffron Toucanet, Yellow-eared Woodpecker, Yellow-chinned Spinetail, Sooretama Slaty-antshrike, Chestnut-backed Antshrike, White-flanked Antwren, Long-billed Wren, Yellow-backed Tanager and White-browed Blackbird.

Day 9: The final full day so we set off in search of the Three-toed Jacamar! **Species of note for the day included:** White-tailed Hawk, Blackish Rail, Ash-throated Crake, Red-legged Seriema, White-eyed Parakeet, Blue-winged Macaw, Burrowing Owl, Three-toed Jacamar, Crescent-chested White-eared Puffbirds, White Woodpecker, Tail-banded Hornero, Firewood-gatherer, Streamer-tailed Tyrant, Grassland Sparrow, White-bellied Seedeater and Lined Seedeater.

Day 10: The group spent the morning around the lodge before departing back to Rio for their flight home at 16.30. **Species of note for the day included:** Swallow-tailed Hummingbird, Olivaceous Woodcreeper (the only record for the week believe it or not!), Streak-capped Antwren and White-throated Spadebill.

Trip totals were as follows:

Total group list seen: 241 species

Atlantic forest endemics: 76

Species heard only: 7

Andy Foster

Serra dos Tucanos Lodge

FULL SPECIES LIST

Species in bold with a * are endemic to the Atlantic rain forest.

TATAUPA TINAMOU (*Crypturellus tataupa*) A single was heard at the Wetlands.

BROWN TINAMOU (*Crypturellus obsoletus*) Heard only, at several locations.

LEAST GREBE (*Tachybaptus dominicus*) One was seen at the Wetlands.

NEOTROPIC CORMORANT (*Phalacrocorax brasilianus*) Several seen on the journey up from Rio.

MAGNIFICENT FRIGATEBIRD (*Fregata magnificens*) Several were recorded from the Rio - Niteroi Bridge and two were seen high over the Wetlands.

GREAT EGRET (*Ardea alba*) Seen in most wet areas along the roadside when on excursions.

SNOWY EGRET (*Egretta thula*) Several recorded on the journey up from Rio, and one at the Wetlands.

CATTLE EGRET (*Bubulcus ibis*) Seen commonly in any suitable habitat.

STRIATED HERON (*Butorides striatus*) One on the Jacamar excursion.

WHITE-FACED WHISTLING-DUCK (*Dendrocygna viduata*) Two on the way up from the airport was the only record.

BRAZILIAN TEAL (*Amazonetta braziliensis*) 16+ at the Wetlands.

MASKED DUCK (*Nomonyx dominica*) Two at the Wetlands.

BLACK VULTURE (*Coragyps atratus*) Seen almost daily, common.

TURKEY VULTURE (*Cathartes aura*) Seen almost daily, common.

LESSER YELLOW-HEADED VULTURE (*Cathartes burrovianus*) Two at the Wetlands.

BICOLOURED HAWK (*Accipter bicolor*) One at the Porao Azul.

* **MANTLED HAWK** (*Leucopternis polionota*) One on the Theodoro Trail.

SAVANNA HAWK (*Heterospizias meridionalis*) Recorded in small numbers on most excursions.

ROADSIDE HAWK (*Buteo magnirostris*) Recorded almost daily in small numbers.

WHITE-TAILED HAWK (*Buteo albicaudatus*) One at the Pico de Caladonia and one on the Jacamar Excursion.

BLACK-AND-WHITE HAWK-EAGLE (*Spizastur melanoleucus*) Two over the lodge on the 15th and 19th and one at the Wetlands.

SOUTHERN CARACARA (*Caracara plancus*) One at the Portao Azul and two on the Jacamar Excursion.

YELLOW-HEADED CARACARA (*Milvago chimachima*) Recorded almost daily from suitable habitats.

DUSKY-LEGGED GUAN (*Penelope obscura*) Three at the Portao Azul and one at the Serra dos Orgaos National Park.

* **SLATY-BREASTED WOOD-RAIL** (*Aramides saracura*) One in the lodge gardens and two at the Portao Azul.

BLACKISH RAIL (*Pardirallus nigricans*) Two on the Jacamar Excursion.

ASH-THROATED CRAKE (*Porzana albicollis*) One on the Jacamar Excursion showed particularly well!

RED-LEGGED SERIEMA (*Cariama cristata*) Two on the high altitude excursion and 3 on the Jacamar Excursion.

PURPLE GALLINULE (*Porphyrio martinica*) Small numbers seen on the wetland excursion.

COMMON MOORHEN (*Gallinula chloropus*) Seen on the wetland and Jacamar excursions.

WATTLED JACANA (*Jacana jacana*) Seen on the wetland and Jacamar Excursion.

SOUTHERN LAPWING (*Vanellus chilensis*) Recorded almost daily in suitable habitats.

KELP GULL (*Larus dominicanus*) Small numbers were recorded on the journey from Rio.

PICAZURO PIGEON (*Patagionas picazuro*) Small numbers recorded most days.

PLUMBEOUS PIGEON (*Patagionas plumbea*) One was heard on the Theodoro Trail

RUDDY GROUND-DOVE (*Columbina talpacoti*) Seen in small numbers almost daily.

BLUE-WINGED MACAW (*Ara maracana*) A flock of 12 were seen on the Jacamar excursion.

WHITE-EYED PARAKEET (*Aratinga leucophthalmus*) Small numbers were heard on the 18th, with 3 being seen on the Jacamar excursion.

* **MAROON- BELLIED PARAKEET** (*Pyrrhura frontalis*) Small numbers recorded in the lodge gardens daily. Also seen on several of the excursions.

BLUE-WINGED PARROTLET (*Forpus crassirostris*) 5 in the lodge grounds on the 15th and small numbers on the 20th.

* **PLAIN PARAKEET** (*Brotogeris tirica*) Small numbers recorded in the lodge gardens almost daily.

SCALY-HEADED PARROT (*Pionus maximiliani*) Recorded within the lodge grounds on several occasions, also on several of the excursions.

SQUIRREL CUCKOO (*Piaya cayana*) One or two birds were recorded almost daily.

SMOOTH-BILLED ANI (*Crotophaga ani*) Seen commonly in any suitable habitat.

GUIRA CUCKOO (*Guira guira*) Seen commonly in any suitable habitat.

BURROWING OWL (*Athene cunicularia*) 1 on the Jacamar excursion was the only record.

WHITE-COLLARED SWIFT (*Streptoprocne zonaris*) Recorded on 3 dates.

ASHY-TAILED SWIFT (*Chaetura Andrei*) Small numbers were recorded on the 21st.

* **SAW-BILLED HERMIT** (*Ramphodon naevius*) Recorded almost daily around the lodge.

* **SCALE-THROATED HERMIT** (*Phaethornis eurynome*) Small numbers on the Theodoro Trail and at Macae de Cima.

REDDISH HERMIT (*Phaethornis ruber*) A single bird on the 19th was the only record.

RUFIOUS-BREASTED HERMIT (*Glaucis hirsuta*) One at the lodge on the 15th, followed by another single bird at the wetlands.

SWALLOW-TAILED HUMMINGBIRD (*Eupetomena macroura*) 2 single records, one on the 22nd and another on the 23rd.

* **BLACK JACOBIN** (*Melanotrochilus fuscus*) Seen daily around the lodge and on several of the excursions.

* **PLOVERCREST** (*Stephanoxis lalandi*) One on the high altitude excursion on the 18th was the only record.

* **FRILLED COQUETTE** (*Lophornis magnificus*) One at the lodge on the 15th was the only record.

GLITTERING-BELLIED EMERALD (*Chlorostilbon aureoventris*) 2 single birds were recorded on the 16th, followed by another on the 22nd.

* **VIOLET-CAPPED WOODNYMPH** (*Thalurania glaucopis*) Seen almost daily around the lodge and on several of the excursions.

* **WHITE-THROATED HUMMINGBIRD** (*Leucochloris albicollis*) Single birds seen on 3 separate dates.

VERSCOLOURED EMERALD (*Agyrtia versicolor*) Seen almost daily at the lodge.

* **SOMBRE HUMMINGBIRD** (*Campylopterus curruhocloris*) Recorded daily at the lodge.

* **BRAZILIAN RUBY** (*Clytolaema rubricauda*) One on the Theodoro Trail was the only record.

AMETHYST WOODSTAR (*Calliphlox amethystine*) One on the high altitude excursion on the 18th was the only record.

SURUCUA TROGON (*Trogon surrucura*) One heard on the 17th, and one seen on the 21st.

RINGED KINGFISHER (*Ceryle torquata*) One on the 19th was the only record.

GREEN KINGFISHER (*Chloroceryle Americana*) One or two birds at the lodge on two dates.

AMAZON KINGFISHER (*Chloroceryle amazona*) One on the Jacamar excursion on the 22nd was the only record.

* **RUFOUS-CAPPED MOTMOT** (*Baryphthengus ruficapillus*) Two in the lodge grounds on the 15th was the only record.

* **THREE-TOED JACAMAR** (*Jacamaralcyon tridactyla*) As usual this bird performed well with one being seen on the 22nd.

WHITE-EARED PUFFBIRD (*Hystalus chacuru*) Three birds were recorded on the High Altitude excursion and another on the Jacamar excursion.

* **CRESCENT-CHESTED PUFFBIRD** (*Halacoptila striata*) One in the lodge grounds on the 15th, one at the wetlands on the 21st, followed by good views for the whole group of two on the 22nd.

* **SAFFRON TOUCANET** (*Baillonius bailloni*) One at the Portao Azul on the 16th followed by 2 birds recorded on the 21st.

SPOT-BILLED TOUCANET (*Selenidera maculirostris*) One on the Theodoro Trail played hard to get, followed by another record in the lodge grounds on the 20th January.

CHANNEL-BILLED TOUCAN (*Rhamphastos vitellinus*) 2 on the 21st were the only record.

WHITE-BARRED PICULET (*Picumnus cirratus*) Seen or heard on most forested excursions.

CAMPO FLICKER (*Colaptes campestris*) A single bird on the Jacamar excursion was the only record.

YELLOW-THROATED WOODPECKER (*Piculus flavigula*) 2 at the National Park on the 19th showed well.

* **YELLOW-BROWED WOODPECKER** (*Piculus auulentus*) One on the high altitude excursion on the 18th was the only record.

BLOND-CRESTED WOODPECKER (*Celeus flavescens*) Recorded almost daily at the lodge feeders.

WHITE WOODPECKER (*Melanerpes candidus*) 2 on the 21st followed by a flock of 6 on the 22nd.

* **YELLOW-EARED WOODPECKER** (*Veniliornis maculifrons*) 2 on the 16th and one on the 21st were the only records.

GREEN-BARRED WOODPECKER (*Colaptes melanochloros*) One on the 18th was the only record.

* **THRUSH-LIKE WOODCREEPER** (*Dendrocincla turdina*) A single at the lodge on the 17th was the only record.

OLIVACEOUS WOODCREEPER (*Sittasomus griseicapillus*) Amazingly just one record of a single bird on the 23rd.

* **WHITE-THROATED WOODCREEPER** (*Xiphocolaptes albicollis*) 2 birds on the 19th, followed by 3 single records on the 20th and 21st.

* **LESSER WOODCREEPER** (*Lepidocolaptes fuscus*) Small numbers recorded on 3 dates.

NARROW-BILLED WOODCREEPER (*Lepidocolaptes angustirostris*) A single bird recorded in the lodge grounds on the 17th was the only record.

* **BLACK-BILLED SCYTHEBILL** (*Campylorhamphus falcularius*) Two birds showed very well in the National Park on the 19th.

* **TAIL-BANDED HORNERO** (*Furnarius figulus*) Two on the Jacamar excursion on the 22nd was the only record.

RUFOUS HORNERO (*Furnarius rufus*) Seen commonly in any suitable habitat.

* **RUFOUS-CAPPED SPINETAIL** (*Synallaxis ruficapilla*) One on the 16th was the only record.

SPIX'S SPINETAIL (*Synallaxis spixi*) Two on the 16th was the only record.

* **PALLID SPINETAIL** (*Cranioleuca pallida*) Two birds seen on two dates.

YELLOW-CHINNED SPINETAIL (*Certhiaxis cinnamomea*) Small numbers recorded on the 21st and again on the 22nd.

COMMON THORNBIRD (*Phacellodomus rufifrons*) Two on the High Altitude Excursion on the 18th followed by a single bird on the 22nd.

* **RED-EYED THORNBIRD** (*Phacellodomus erythrophthalmus*) Two on the Portao Azul on the 16th was the only record.

FIREWOOD-GATHERER (*Anumbius annumbi*) Two on the Jacamar excursion was the only record.

* **WHITE-COLLARED FOLIAGE-GLEANER** (*Anabazenops leucophthalmus*) Two on the Poatao Azul on the 16th.

* **WHITE-BROWED FOLIAGE-GLEANER** (*Anabacerthia amaurotis*) Two on the Theodoro Trail on the 20th.

BUFF-BROWED FOLIAGE-GLEANER (*Syndactyla rufosuperciliata*) One on the high altitude excursion on the 18th was the only record.

* **BLACK-CAPPED FOLIAGE-GLEANER** (*Philydor atricapillus*) A single bird at the National Park was the only record.

BUFF-FRONTED FOLIAGE-GLEANER (*Philydor rufus*) 4 on the 16th, and 1 on the 19th.

* **WHITE-EYED FOLIAGE-GLEANER** (*Automolus leucophthalmus*) One in the lodge grounds on the 17th was the only record.

* **PALE-BROWED TREEHUNTER** (*Cichlocolaptes leucophrus*) One in the National Park was the only record.

PLAIN XENOPS (*Xenops minutus*) One in the lodge grounds on the 17th was the only record.

STREAKED XENOPS (*Xenops rutilans*) 2 single birds on two dates.

TAWNY-THROATED LEAFTOSSER (*Sclerurus mexicanus*) Two on the Theodoro Trail on the 20th.

SHARP-TAILED STREAMCREEPER (*Lochnias nematura*) The breeding pair were regularly seen at the lodge.

GIANT ANTSHRIKE (*Batara cinerea*) Two showed very well in the National Park.

* **TUFTED ANTSHRIKE** (*Mackenziaene severa*) A single bird at the Portao Azul was the only record.

* **LARGE-TAILED ANTSHRIKE** (*Mackenziaena leachii*) Two on the high altitude excursion was the only record.

CHESTNUT-BACKED ANTSHRIKE (*Thamnophilus palliatus*) Three at the wetlands on the 21st were the only records.

* **SOORETAMA SLATY-ANTSHRIKE** (*Thamnophilus ambiguous*) Two at the wetlands on the 21st were the only records.

VARIABLE ANTSHRIKE (*Thamnophilus caerulescens*) 2 on the 16th and a single bird on the 18th.

* **SPOT-BREASTED ANTVIREO** (*Dysithamnus stictothorax*) Two in the lodge grounds on the 17th followed by two in the National park.

PLAIN ANTVIREO (*Dysithamnus mentalis*) 4 on the 17th was the only record.

* **RUFOUS-BACKED ANTVIREO** (*Dysithamnus xanthopterus*) 2 on the High Altitude Excursion followed by one heard at the National Park.

* **STAR-THROATED ANTWREN** (*Myrmotherula gularis*) 4 seen well on the 20th, followed by others heard on the 21st.

WHITE-FLANKED ANTWREN (*Myrmotherula axillaries*) 3 at the Wetlands were the only record.

* **FERRUGINOUS ANTBIRD** (*Drymophila ferruginea*) One at the Portao Azul on the 16th.

* **BERTONIS ANTBIRD** (*Drymophila rubricollis*) Two on the Theodoro Trail on the 20th.

* **RUFOUS-TAILED ANTBIRD** (*Drymophila genei*) Three on the high altitude excursion.

* **OCHRE-RUMPED ANTBIRD** (*Drymophila ochropyga*) Two at the National Park on the 19th.

* **DUSKY-TAILED ANTBIRD** (*Drymophila malura*) Two at the Portao Azul was the only record.

* **SCALED ANTBIRD** (*Drymophila squamata*) Two in the lodge grounds on the 17th.

* **STREAK-CAPPED ANTWREN** (*Terenura maculata*) One in the lodge grounds on the 23rd.

* **WHITE-BIBBED ANTBIRD** (*Myrmiciza loricata*) One in the National Park on the 20th was the only record.

* **WHITE-SHOULDERED FIRE-EYE** (*Pyriglena leucoptera*) Two on the 16th was the only record.

* **BRAZILIAN ANTTHRUSH** (*Chamaeza ruficauda*) One was seen on the Theodoro trail.

* **SUCH'S ANTTHRUSH** (*Chamaeza meruloides*) Heard on two dates.

* **RUFOUS GNATEATER** (*Conopophaga lineate*) Two on the 18th was the only record.

* **BLACK-CHEEKED GNATEATER** (*Conopophaga melanops*) - Recorded at the lodge on two dates.

* **SLATY BRISTLEFRONT** (*Merulaxis ater*) One on the Theodoro trail on the 20th was the only record.

* **SERRA DO MAR TAPACULO** (*Scytalopus notorious*) One on the high altitude excursion was the only record.

SHRIKE-LIKE COTINGA (*Laniisoma elegans*) Two in the lodge grounds on the 17th, this was a first for the lodge grounds!

SWALLOW-TAILED COTINGA (*Phibalura flavirostris*) Six on the high altitude excursion was the only record.

* **BLACK-AND-GOLD COTINGA** (*Tijuca atra*) Two gave great views on the high altitude excursion.

* **GREY-WINGED COTINGA** (*Tijuca condita*) This rare endemic gave good views on the high altitude excursion.

* **HOODED BERRYEATER** (*Carpornis cucullatus*) Two at the National Park on the 19th was the only record.

* **BARE-THROATED BELLBIRD** (*Procnias nudicollis*) Three were seen on the Macae de Cima trail. Heard on two other dates.

CHESTNUT-CROWNED BECARD (*Pachyramphus castaneus*) Two at the National Park on the 19th.

WHITE-WINGED BECARD (*Pachyramphus polychopterus*) One at the National Park on the 19th.

CRESTED BECARD (*Pachyramphus validus*) Small numbers seen on 3 dates.

* **SERRA TYRANT-MANAKIN** (*Neopelma chrysolophum*) One on the high altitude excursion was the only record.

* **BLUE MANAKIN** (*Chiroxiphia caudata*) - Recorded on most trips into the forest.

WHITE-BEARDED MANAKIN (*Manacus manacus*) Small numbers recorded at the wetlands on the 21st.

***PIN-TAILED MANAKIN** (*Ilicuramilitaris*) One at the Portao Azul and one at the lodge were the only records.

WHITE-RUMPED MONJITA (*Xolmis velata*) One on the Jacamar excursion on the 22nd.

BLUE-BILLED BLACK-TYRANT (*Knipolegus cyanirostris*) 4 on the high altitude excursion on the 18th.

* **SHEAR-TAILED GREY-TYRANT** (*Muscipipra vetula*) One on the high altitude excursion was the only record.

STREAMER-TAILED TYRANT (*Gubernetes yetapa*) Four were seen on the Jacamar excursion.

LONG-TAILED TYRANT (*Colonia colonius*) 4 at the Portao Azul was the only record.

MASKED WATER-TYRANT (*Fluvicola nengeta*) Recorded daily at the lodge and on several of the excursions.

WHITE-HEADED MARSH-TYRANT (*Arundicola leucocephala*) Small numbers seen on two dates.

YELLOW-BROWED TYRANT (*Satrapa icterophrys*) One on the 16th and three on the Jacamar Excursion on the 22nd.

CATTLE TYRANT (*Machetornis rixosus*) Two on the Jacamar excursion were the only records.

TROPICAL KINGBIRD (*Tyrannus melancholicus*) Recorded daily from any suitable habitat.

RUSTY-MARGINED FLYCATCHER (*Myiozetetes caanensis*) Two at the wetlands was the only record.

SOCIAL FLYCATCHER (*Myiozetetes similis*) Recorded almost daily from any suitable habitat.

STREAKED FLYCATCHER (*Myiodynastes maculates*) Recorded almost daily at the lodge and on several of the excursions.

GREAT KISKADEE (*Pitangus sulphuratus*) Recorded daily from any suitable habitat.

BOAT-BILLED FLYCATCHER (*Megarhyncus pitangua*) Just two records of single birds.

* **GREY-HOODED ATTLA** (*Attila rufus*) Single records from the lodge, Portao Azul and the National Park.

VARIEGATED FLYCATCHER (*Empidonomus varius*) A single bird on the 18th was the only record.

PIRATIC FLYCATCHER (*Legatus leucophaeus*) A single bird on the Jacamar excursion was the only record.

BRAN-COLORED FLYCATCHER (*Myiophobus fasciatus*) One at the Portao Azul was the only record.

FUSCOUS FLYCATCHER (*Cnemotriccus fuscatus*) One at the Portao Azul was the only record.

CLIFF FLYCATCHER (*Hirundinea ferruginea*) 2 on the 16th was the only record.

TROPICAL PEWEE (*Contopus cinereus*) 2 on the 16th was the only record.

WHITE-THROATED SPADEBILL (*Platyrinchus mystaceus*) One at the lodge on the 23rd was the only record.

YELLOW-OLIVE FLYCATCHER (*Tolmomyias sulphurescens*) One of the commonest flycatchers being seen or heard almost daily.

* **YELLOW-LORED TODY-FLYCATCHER** (*Todirostrum poliocephalum*) One at the National Park on the 19th and another on the Jacamar Excursion.

OCHRE-FACED TODY-FLYCATCHER (*Todirostrum plumbeiceps*) Two on the 16th and another on the 20th.

* **HANGNEST TODY-TYRANT** (*Hemitriccus nidipendulus*) Two at the Portao Azul on the 16th.

* **EYE-RINGED TODY-TYRANT** (*Hemitriccus orbitatus*) One heard at the National Park.

* **DRAB-BREASTED BAMBOO-TYRANT** (*Hemitriccus diops*) One at the Portao Azul on the 16th was the only record.

EARED PYGMY-TYRANT (*Myiornis auricularis*) Two on the Theodoro Trail on the 20th.

MOTTLE-CHEEKED TYRANNULET (*Phylloscartes ventralis*) Two on the high altitude excursion was the only record.

WHITE-CRESTED TYRANNULET (*Serpophaga subcristata*) One on the 16th and another on the 18th were the only records.

YELLOW-BELLIED ELAENIA (*Elaenia flavogaster*) One at the Wetlands and three on the Jacamar excursion.

OLIVACEOUS ELAENIA (*Elaenia mesoleuca*) One on the 16th followed by another on the 18th.

SOUTHERN BEARDLESS-TYRANNULET (*Camptostoma obsoletum*) One on the high altitude excursion was the only record.

PLANALTO TYRANNULET (*Phyllomyias fasciatus*) Two on the high altitude excursion was the only record.

***GREY-CAPPED TYRANNULET** (*Phyllomyias griseocapilla*) One at the lodge on the 15th and one heard on the 16th.

YELLOW TYRANNULET (*Capsiempis flaveola*) Two at the Portao Azul on the 16th.

SEPIA-CAPPED FLYCATCHER (*Leptopogon amaurocephalus*) Two on the 17th followed by another on the 19th.

* **GREY-HOODED FLYCATCHER** (*Mionectes rufiventris*) One heard on the 17th, and one seen on the 18th.

SHARPBILL (*Oxyruncus cristatus*) Heard only on the Theodoro trail.

GREY-BREASTED MARTIN (*Progne chalybea*) 5 recorded on the 16th was the only record.

BLUE-AND-WHITE SWALLOW (*Pygochelidon cyanoleuca*) Recorded daily from suitable habitats.

SOUTHERN ROUGH-WINGED SWALLOW (*Stelgidopteryx ruficollis*) Small numbers recorded on two dates.

* **LONG-BILLED WREN** (*Thryothorus longirostris*) One at the lodge on the 15th, followed by 2 at the wetlands on the 21st.

MOUSTACHED WREN (*Thryothorus genibarbis*) One at the wetlands on the 21st was the only record.

HOUSE WREN (*Troglodytes aedon*) Recorded daily from any suitable habitat.

BLACK-CAPPED DONACOBIOUS (*Donacobius atricapillus*) Three on the Jacamar excursion.

CHALK-BROWED MOCKINGBIRD (*Mimus saturninus*) Common in any open scrubland habitat.

YELLOW-LEGGED THRUSH (*Platycichla flavipes*) One on the high altitude excursion and one at the National Park.

RUFOUS-BELLIED THRUSH (*Turdus rufiventris*) Recorded daily from any suitable habitat.

PALE-BREASTED THRUSH (*Turdus leucomelas*) Recorded daily at the lodge and on several of the excursions.

CREAMY-BELLIED THRUSH (*Turdus amaurochalinus*) Two on the 18th followed by a single at the lodge on the 20th.

COMMON WAXBILL (*Estrilda astrild*) Common on the Jacamar excursion.

RUFOUS-BROWED PEPPERSHRIKE (*Cyclarhis gujanensis*) Recorded almost daily from suitable forest habitat.

RED-EYED VIREO (*Vireo olivaceus*) A handful were recorded at the National park followed by one on the 21st.

RUFOUS-CROWNED GREENLET (*Hylophilus poecilotis*) Small numbers recorded on 3 dates.

GOLDEN-CROWNED WARBLER (*Basileuterus culicivorus*) Two on the 20th followed by two on the 21st.

BANANAQUIT (*Coereba flaveola*) Recorded daily from many locations.

CHESTNUT-VENTED CONEBILL (*Conirostrum speciosum*) One on the 19th in the Lower National Park.

GREEN HONEYCREEPER (*Chlorophanes spiza*) A pair at the lodge on two dates.

BLUE DACNIS (*Dacnis cayana*) Recorded almost daily in small numbers.

ORANGE-BELLIED EUPHONIA (*Euphonia xanthogaster*) Commonly recorded on the feeders at the lodge.

VIOLACEOUS EUPHONIA (*Euphonia violacea*) Commonly recorded on the feeders at the lodge.

* **CHESTNUT-BELLIED EUPHONIA** (*Euphonia pectoralis*) Commonly recorded on the feeders at the lodge.

BLUE-NAPEL CHLOROPHONIA (*Chlorophonia cyanea*) One heard on the 19th.

* **GREEN-HEADED TANAGER** (*Tangara seledon*) Recorded everyday from the feeders by the lodge and in suitable lowland forest habitats.

* **RED-NECKED TANAGER** (*Tangara cyanocephala*) Recorded regularly within the grounds of the lodge and in suitable lowland forest habitats.

* **GILT-EDGED TANAGER** (*Tangara cyanoventris*) Two at the Portao Azul on the 16th was the only record.

* **BRASSY-BREASTED TANAGER** (*Tangara desmaresti*) Small flocks recorded on four separate dates.

BURNISHED-BUFF TANAGER (*Tangara cayana*) Recorded almost daily on the feeders at the lodge and from suitable forested habitat.

DIADEMED TANAGER (*Stephanophorus diadematus*) Six on the high altitude excursion was the only record.

SAYACA TANAGER (*Thraupis sayaca*) Recorded daily in the grounds of the lodge and various other locations.

* **AZURE-SHOULDERED TANAGER** (*Thraupis cyanoptera*) One on the Theodoro Trail was the only record.
